- Apps deployment
- Establish reporting functions for all layers in the company
- Monitoring Progress and Quality
- FSP integration

CIMS, Taastrupgårdsvej 22-24, 2630 Taastrup, +45 3133 3742, cims@cims.dk, www.cimsconsult.com
CIMS Report Apps

Will generate all necessary reports on an automated basis with client specified internals. Daily, weekly, monthly etc.

Based on scientific statistical tests and Artificial Intelligence (AI) the reports can evaluate progress, status and probability for delays on all ongoing tasks. CIMS report apps also offer AI trending based on your real operational data, which can predict incidences before they happen.

Reports can be generated to reflect different stakeholder’s needs.

**Management Status Report**

<table>
